TO: ALL CRYSTAL WATER BEACH PROPERTY OWNERS

"Not Block Your Neighbor's View" Tree Project

- \* We now have a response from 49 out of 68 homeowners.  
    43 have said yes   4 have said no  
    2 have said yes conditionally
  
- \* Unfortunately, the weather did not allow the December 26th work party to happen.

Note: The out of state business project that took me away January and February has been extended to June. I am suggesting the following:

1. Will owners who preferred to do their own lowering please target to do same by April 30. It will be an encouraging sign to others as this sensitive project moves forward.
  
2. Perhaps owners who preferred the work party to do the lowering can get assistance from their neighbor? Especially the one who is being blocked might lend a hand!
  
3. I will take up the leadership upon my return. Don't give up the ship, the majority want to enjoy a full view!
